The real opportunities that are available do not allow you to make real cash when you need it. With most of them, you will have to work for years before you can actually see some real money come in.

The truth is, however, that to make a couple of Hundreds or a few Thousand Rands online, is very, very easy! It really is very easy but only if you are using the right System!

Topics covered in this Presentation:

It is better to read the whole document, so that you may get all the information, however, you may also click on any of these questions here below to skip to that particular part of the document.

[1-Is this an illegal pyramid scheme?](#)

[2-Do I have to go from door to door and sell stuff?](#)

[3-How much could I possibly earn, working from home?](#)

Question 1:

Is this an illegal pyramid scheme?

The answer to this question is a straight forward “**NO!!!**” because we as the SA-Solution team are not a bunch of scammers, we are proud South African Internet Entrepreneurs who work hard to earn our money online.

We are South Africans, just like yourself, who have got families to provide for; we have got mouths to feed and bills to pay and we prefer to use the Internet to make money online and we do so in an honest, ethical way. We choose this System because it works and because it brings extremely powerful, successful results.

The truth is: if it works for us, it can work for anybody!

We are normal, average people, just like you, who have also, at certain times, searched for a way to make real money online. We were also desperate because nothing else on the Internet produced effective results. Nothing out there was effective! We have also searched and have also discovered that nothing else works!

BUT

Our online searches for ways to make real money online have brought us to this highly effective Business Opportunity!

With this Business Opportunity we have finally discovered an effective System that works and therefore, we are proud to share it with all members of our country who need to make some extra cash, fast. It just requires that you learn how the System works and then start to apply it! As soon as you have learned how our System works

and start to apply it, you can literally make Hundreds and even Thousands of Rands and have it paid into your Bank Account as instant cash! That is awesome!!!

Please Understand:

It's not a get rich quick scheme! It cannot make you a millionaire overnight. That will take time, much hard work and effort. In fact, it may take several years to actually become a millionaire, doing this.

BUT

This is **the only opportunity**, however, that can, after you have learned how to apply our system, quickly produce, through your work and efforts, a couple of Hundreds or Thousands of Rands, in a fairly short amount of time! Instant cash!!!

The great thing is that after you have learned how to apply our System, you can use it over and over again, all through your life!

Yes, it's true!

This System actually enables you to make Hundreds and even Thousands of Rands Online and have it paid into your Bank Account as Instant cash!

How is that possible?

The reason for this is the fact that we only work with the most beautiful and the most valuable banknote in South Africa; **The R200**.

The R200; a South African beauty and it is also the banknote, which carries the highest value in South Africa. This banknote has become the symbol of the SA-Solution Work-From-Home System.

R200

This particular banknote has got the highest value in South Africa and therefore, it can easily boost your finance and fill your purse or wallet. Only a few R200's can easily make up a R1000 or R2000.

That is why this is the perfect Business Opportunity if you wish to make money online; it does not take 3 or 4 years to make a couple of Thousands, like it does with most of the other business opportunities. It's a much more achievable goal!

If you are struggling and don't have any money, a quick boost of a couple of R200's can immediately allow you to go to the store and buy some groceries or start paying off some of your debts!

You can collect R200's online, with our System and keep all the profits!

That's right, every R200, which you make online, is yours! Even if you collect 1 or 6, or perhaps 10 or even 20 or a whole stack of R200's at a time. It doesn't matter how many; every R200, which you make online, is yours!

**You can collect R200's like this, online, just as you wish, for the rest of your life!
This is the super benefit of using our System.
That is what makes this the Number 1
Super Income Opportunity in
South Africa!**

The amazing fact is that every time you make a R200 online, it also means that your online business is growing! This opportunity allows for unlimited growth in your Online Business, as you will see in this Presentation!

There are two ways to make money with our unique and powerful Work-From-Home System.

- (1) **Online Bonus** - Immediate instant cash paid directly into your bank account (R200's)
- (2) **Monthly Income** - Lifelong Residual Passive income that increases as your business grows (Unlimited Income Potential).

Many innocent and unknowing people have been scammed in the past, by wicked fraudsters, who scammed them with promises of wealth and riches. After these unknown, evil people received their victims' hard earned money, they disappeared without a trace. Leaving those poor victims behind with nothing but sorrow and sadness. This is a fact and it is also the reason why many people, when being shown a good, legal business opportunity, immediately think that it is an "illegal pyramid scheme".

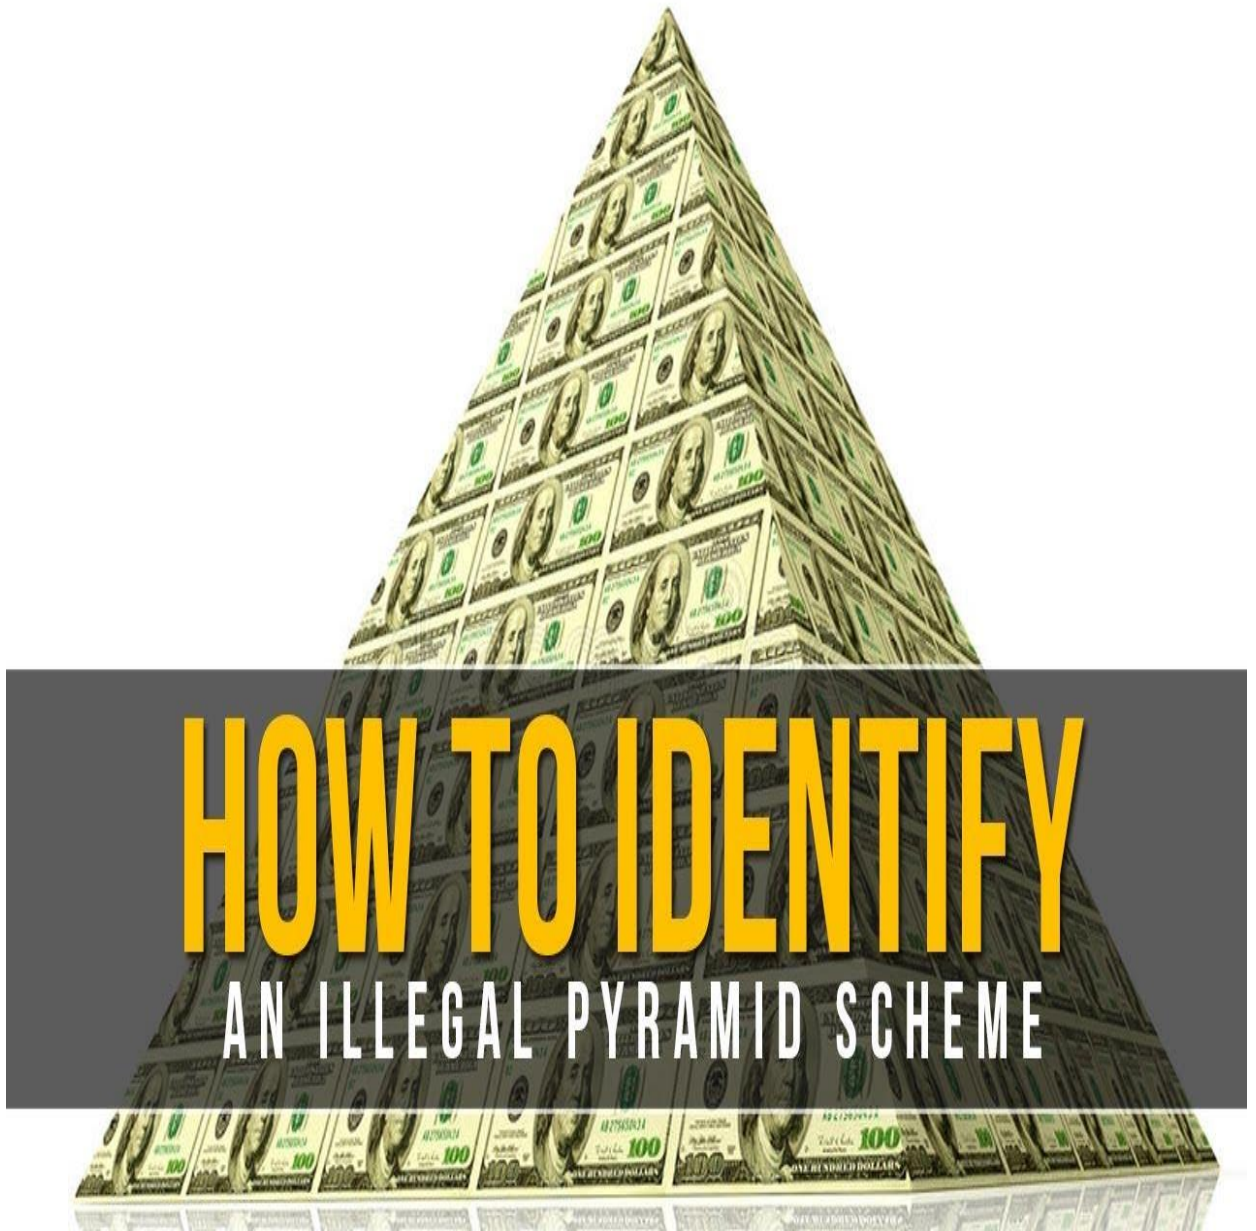

The truth is, however, that when you ask most of them to explain to you exactly what an illegal pyramid scheme is, they would not be able to tell you! They are unable to tell you because most people don't even know what an illegal pyramid scheme is. They do not understand what it is that actually makes it illegal!

If some people do answer this question, however, all they would be able to tell you is "Well, uhm, ehh... it is shaped like a pyramid and the guy at the top is the one who makes the most money; the others, below him, are scammed. The ones at the bottom do not make any money but rather lose their money"

That is more or less what a pyramid scheme is but it is important to know and to understand more than that, so that you might be able to properly identify what legal really is and also what is not.

The reason why you must be able to properly identify an evil or bad pyramid is because there are good pyramids too! You see, most organizations, such as government, schools, churches etc. do have a pyramid shape; one person at the top and others people below him, in the structure. Among these are, of course, good pyramids.

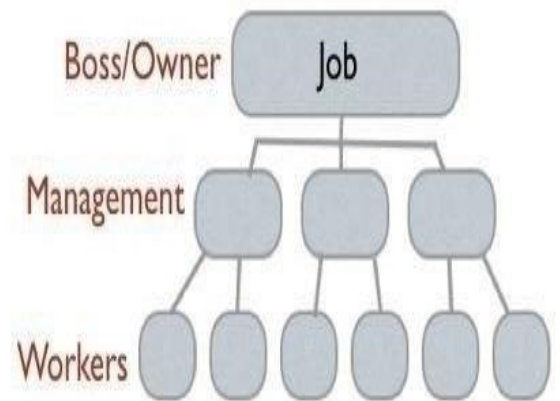

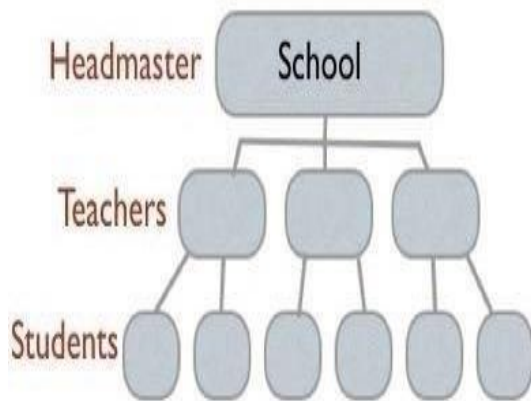

So this means that not everything that is shaped like a "pyramid" is bad or evil. With this presentation we will clearly show you what makes a pyramid legal and how to spot an illegal pyramid scheme.

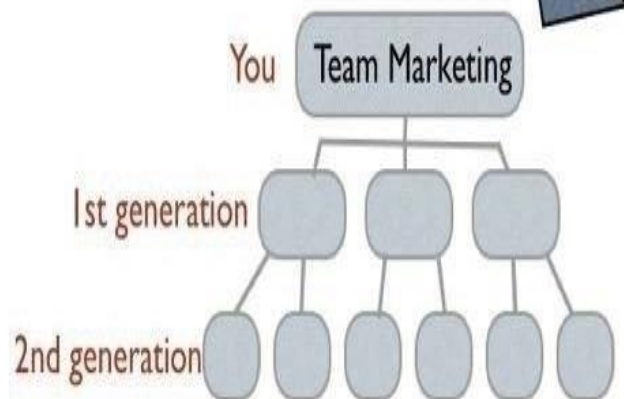

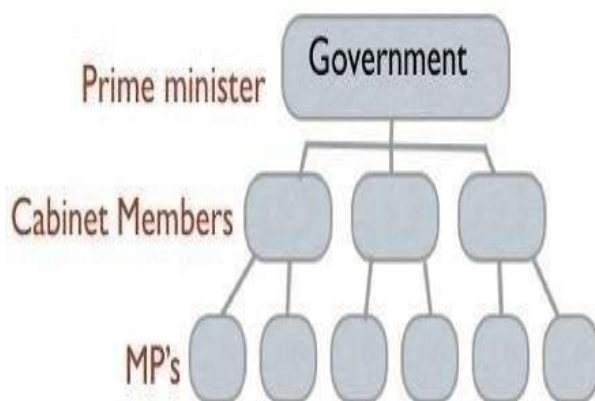

HOW TO IDENTIFY AN ILLEGAL PYRAMID SCHEME

**IT'S TIME TO LEARN THE
FACTS:**

Pyramids: Some are good, some are bad!!

When you join a home based business with a model based on team marketing you always start at the top

"Multi Level Marketing has evolved so much over the last 10 to 15 years, especially since pyramid schemes became illegal all those years ago, unfortunately for many people, they are not aware of that fact or about the powerful industry team marketing has become, our industry has created more millionaires than any other industry, and most of them did it working from home!"

Now, if a person keeps on living in fear of every opportunity being an illegal pyramid scheme, he or she will never be able to spot and identify a real, genuine and also legal money making opportunity, even when it is right in front of his or her own eyes. That is exactly what The SA Solution Work-From-Home System is; a Super, Golden Opportunity that can change your life forever! It is an opportunity that has the potential to make you very wealthy and can enable you to fire your boss!

This is a Network Marketing Business opportunity and Network Marketing is entirely legal. Network Marketing is the Business Model of the future and it has already produced more millionaires than any other business in the entire world! Most people who became millionaires by means of Network Marketing, became so by working from home, in their part-time!

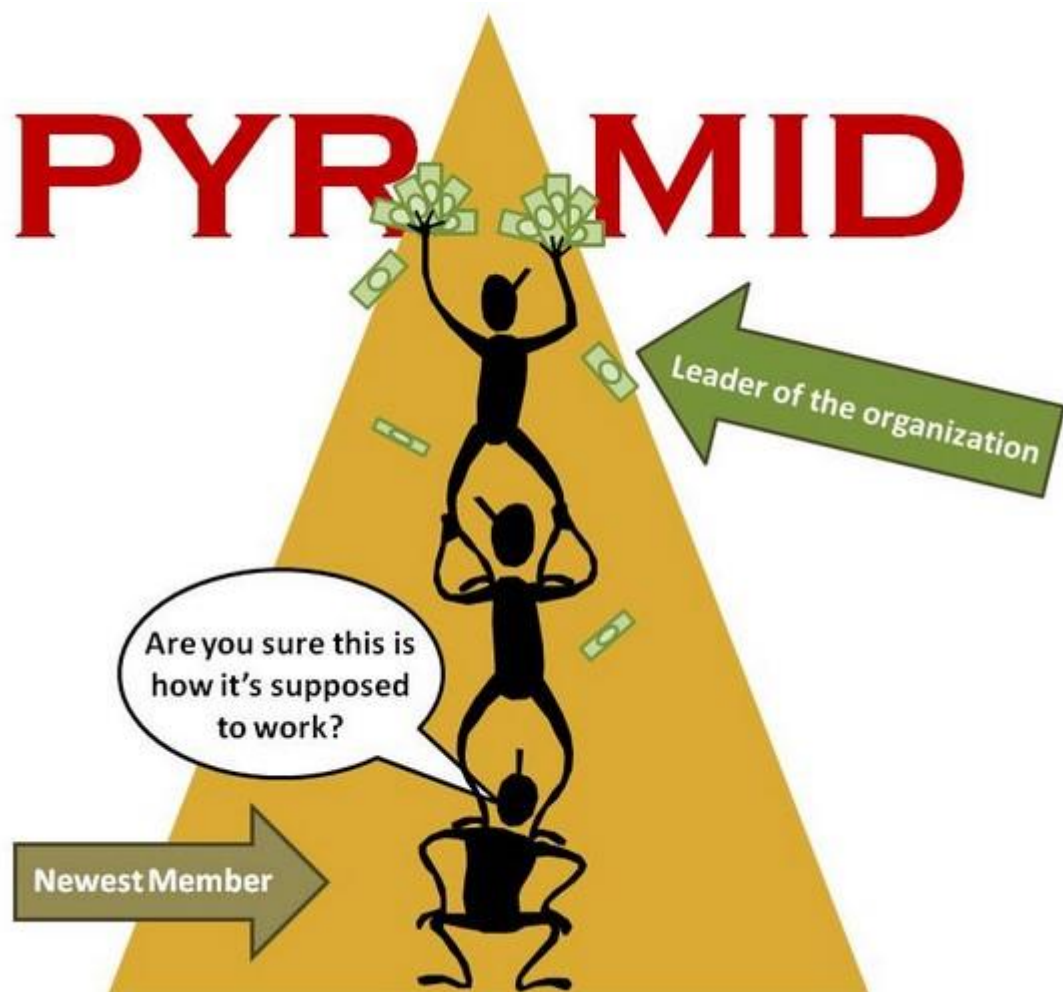

So, to make sure that you understand properly; you must know the differences between an illegal pyramid scheme and a legal Network Marketing Business Opportunity.

Both of the above involve recruiting new people to make the team bigger and that is why many people confuse the two with each other. There is, however, a big difference between the two:

An illegal pyramid scheme is normally designed to make a quick buck. It is designed in such a way that basically the person who is at the top of the pyramid or the ones who started the whole thing, normally make the most money. All members that join and who are recruited are asked to give a certain amount of money with a

promise that as the group grows bigger and bigger, they will receive lots of money in the end.

These poor people then give their money but there is not even a real product of value available to make it a genuine, legal business. What normally happens in these cases is that the people or person on top normally disappears with everyone's money and is gone without a trace. These illegal pyramid schemes also do not have any limitation on how many levels of people may join them. This then means that the first person in, or the guy at the top of the pyramid, is the one who makes the most money. No one else can make more money than him.

So now let's take a look at what a real Network Marketing business is, so that we may compare it with an illegal pyramid scheme. Then you will fully understand why the one is good and legal and why the other is bad, evil and illegal.

Network Marketing (also known as MLM or Multi-Level Marketing); this is a good, legal business opportunity because it gives each one of its members an equally fair chance to make money and to become rich or wealthy. **Results depend on the individual's effort. Lazy people do not get very far but those who are serious can even become millionaires.**

Here is an example of how the concept of network marketing works and what it actually is:

Imagine that you are taking a drive to a far off place one evening and on your way, you stop at a small roadside restaurant to get something to eat. You order some steak and French fries and after tasting it, you fall totally in love with the steak. It just tastes amazing! So now you go and eat there every month.

It just tastes great!!!

Later, as time goes on, you even bring your friends and family to taste the restaurant's steak. The restaurant now gets more and more customers as even these people now invite their friends and family. Everybody loves the steak and everyone eats there at least once a month. So now, in the end, the restaurant is making a lot of money, on a regular basis, simply because you shared your discovery of this wonderful little restaurant with others.

The only problem is that the restaurant owner is getting rich but you have never gotten paid for doing your part in the success of his business! You are the one who got him those customers in the first place!

If it were Network Marketing, the restaurant owner would pay you for every person you had referred to his restaurant. That's only fair, right? If a steak platter meal costs R60, for example, he would maybe give you a R10 for every customer you brought to his restaurant to come and buy a platter. These are then your **"level 1"** customers.

If these customers then invite others to come and eat there, those new people then become your **"level 2"** customers. You would then be paid R8 (example) for every level 2 customer, no matter how many of them there are. Those new customers, then, also go and invite other people, who then become your **"level 3"** customers. You are also paid R8 (example) for every level 3 customer; regardless of how many they are; even if there are hundreds of them.

The level 3 customers now also go and invite other people, who then become your **"level 4"** customers. You are then paid R5 (example) for every single level 4 customer, even if there are already thousands of members by now! These people now all eat at the restaurant every month. The restaurant owner pays you for all those customers, depending on which level they are, every time they eat at his restaurant. This is a win-win

situation for you, for the restaurant and also for the customers!

Everybody wins and benefits. You then, in the end, make lots and lots of money! You become wealthy by simply sharing with others something which is a benefit to you! That is exactly what network marketing is.

So, you can now see that Network Marketing is perfectly fair and honest in that it pays you very well for your efforts and as the group of people that you invite grows and grows, it allows you to become extremely wealthy!

In the above example the business stops at level 4 because every legal Network Marketing Company should, by law, have a limit on how many levels there are in the business. This is to make sure that everyone in the business gets a fair chance at wealth creation and also to stop the person at the top from becoming rich alone.

There is also a product involved; the steak which everyone loves so much. These are the elements that make up a legal Network Marketing Business Opportunity. This all makes it a perfectly legal and fair business opportunity.

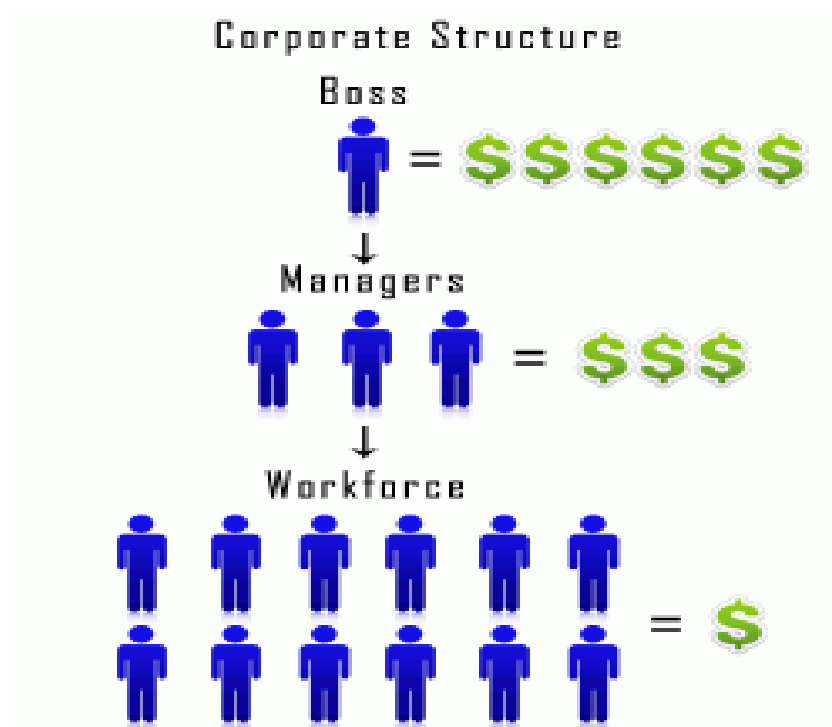

Now, if you are still skeptical and are still not sure whether it would be a good idea to work from home, using our system, let's take a look at the pyramid which YOU are currently involved in; ...your job, The Corporate Pyramid Scheme!

That's right; your job is a "Pyramid Scheme"!!

... or at least when it comes to fairness, it's quite similar to a Pyramid Scheme!

Your job may be legal but in reality it pays much closer resemblance to an illegal pyramid scheme than a Network Marketing Business Opportunity does because it simply isn't as fair towards you as a Network Marketing Company would be in its dealings with you!

Here is the proof:

As you can see on this picture and also know for yourself, the boss or owner of your company does the least amount of work. Yet he earns many thousands more than you do

and he always will! You are right at the bottom of the organization and work your fingers to the bone but you earn the least amount of money! That is how it will be at your job and there is nothing that you can do to change that! You will always earn less than your boss, even though you work harder and harder and proceed to work harder for 20 or 30 years! Is that fair or not?

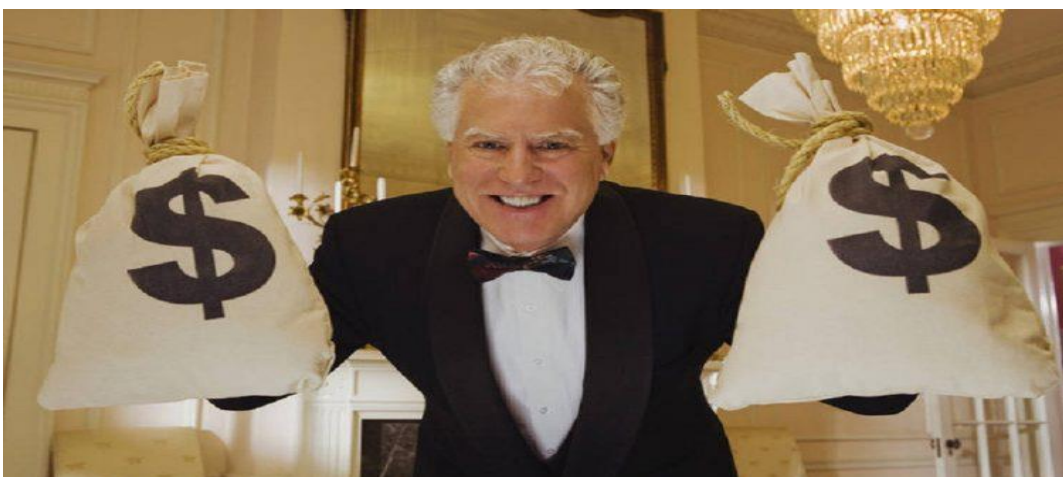

The guy at the top of the pyramid, the boss or CEO, does the least amount of work but gets paid the most money every month! He lives in a large, wonderful house and drives an amazing car! He is living his dreams!

So what about you?

Here is the truth:

You may get a promotion to be a manager or supervisor but you will always be many, many thousands of Rands behind, compared to the guy on top, the boss or CEO.

Getting a promotion does not mean that you will be rich; it simply means that you receive a greater responsibility while you are working for a boss or CEO who is very rich! You are still working your fingers to the bone to make him richer! That is the cold, hard truth!

At your job, even if you get a promotion, the boss is still the one who does the least amount of work but earns the most money! He benefits most, while you sweat and struggle! After all this, you still even struggle to pay your bills!

Your Job, 'The Corporate Pyramid Scheme'.

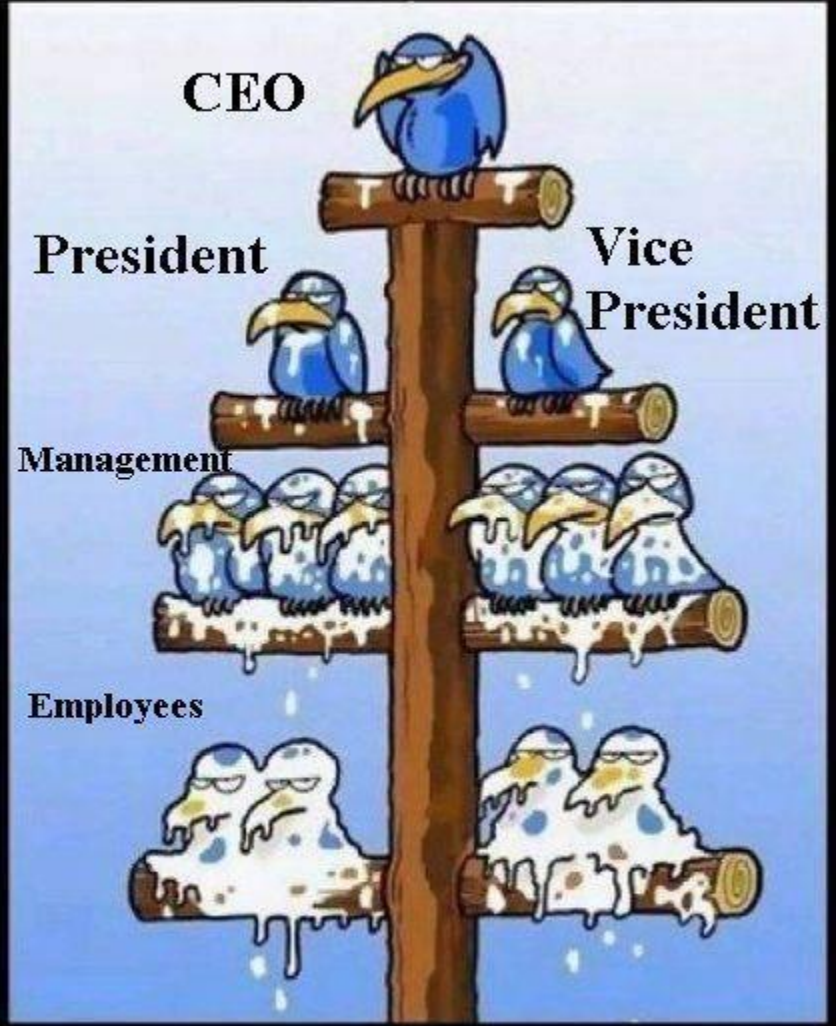

*No Thanks.... Looks like
a Pyramid Scheme to me.*

At your job, **you**, the employee, **are the one who works the hardest**. You are right at the bottom of your work's pyramid. You literally have to accept a lot of "crap" from everyone else above you and cannot do or say anything because you need your job and jobs are scarce out there. It's almost impossible to find another job and even if you do find one, you would still work the hardest but earn the least in the company! **Don't you think it's time to start your own Online Business, with The SA-Solution Work-From-Home System?**

Now is the time to start working from home!

Now let us take a closer and a more in-depth look at how fair a Network Marketing Business Opportunity really is:

The law states various aspects that make Network Marketing Businesses legal. The three most important ones are:

- 1. The business must have a product or render a service;**
- 2. The network must be limited in its levels, in order to prevent the first person in to earn the most (it must be an equal opportunity business);**
- 3. The network may not be sustained only from the registration fees of members: In other words the members must buy or pay for the product on a regular basis, such as by a monthly subscription or debit order (or regularly sell it to customers) in order to ensure that the company always has enough money to pay all its thousands of members. This ensures that everyone involved in the business gets a regular monthly income.**

People tend to think that everything with a pyramid structure is illegal. What they do not realize, however, is that any successful business, government, church, family or organization, after a certain size takes on a pyramid structure.

Furthermore, a network business must be limited to a certain number of levels, in order to prevent the top person to earn the most money. This makes it an equal opportunity business for all, which will give anybody and everybody, involved in the opportunity, a fair chance to become the top earner of that company, irrespective of where they are in the network business structure.

So let's assume that you get paid R15 per person, every month, for each person in your business in the example above. WHO would then earn the most money? **Mark** (at the top), or **You** (at the bottom, with your business marked in yellow)? Obviously you would earn the most even though you are right at the bottom of Mark's business! You earn the most, even though you are at the bottom of his business structure! You've even joined a whole year after he did! You earn more because you had a drive and had put in more effort!

So it is clear that the person at the top, or the first person in, **DOES NOT** make the most money. It is the person who works the hardest who earns the most. You can become the top earner, even if you join last! If you are hardworking and goal driven, you can do it! If you are determined to go for what it is that you truly want out of life and are willing to do the work, you can build a great, successful Online Business, regardless of whether you are at the bottom in the matrix of the business. This makes it an **EQUAL OPPORTUNITY BUSINESS**.

Network Marketing is a fair, legal business opportunity.

Looking at the example above, it is also clear that network marketing is even fairer towards you than your current job is because at your job, you are at the bottom but can never earn the most in the company!

That is why Network Marketing is the perfect Home-based Business!

No matter who or what you are, if you have the drive, the passion and if you do take action, you can be the person who then earns the most! Each person's business starts with him or herself and not with the person above them. There is a general misconception that the people at the top of a network make the most money. The example, which I've made, just proved that wrong.

You can now clearly see, from the examples above, that Network Marketing is not even close to being an illegal pyramid scheme! It is also clearly better than working like a slave, for a boss. It is also perfect if you want to start earning an extra income!

Products

The products that we will take a look at are **Funeral Policies**. There are 2 to choose from, depending on your specific needs and what you can afford.

Please note and remember the following:

A funeral policy is the best, most absolute perfect product for a Home-based Business.

Why?

Because it requires a zero percentage amount of work! If you are doing this business, part-time, at first, you will probably not have time in the evenings, when you arrive home from work, to go and sell stuff to other people. Nor will you have the time to go to people's homes to do product demonstrations. You will simply be too tired!

Here is the Solution: You will not be required to go out and sell our funeral policies to other people but simply to take out one for yourself.

That's it!

That's all you have to do and you have got a Home-based Business for life! No stress, no fuss!

The policies are also very affordable!

Funeral policies: Easy to choose; simply make your choice based on what you can afford: R100 or R200 per month.

Please Note:

You may take out one of our funeral policies, even though you already do have another funeral policy; In fact, most of our members do already have other funeral policies, when joining us but simply chose this opportunity because it enables them to make money online and even to become rich or wealthy while still alive! It enables our members to earn a growing, residual income, working from home!

You may use this policy, simply to have an Online Business and to make money online. It enables you to have an Online Business, without ever having to sell physical products to other people. It is the best and simplest way to make money online because it is a no-stress product!

Choose the policy which will suit your specific need or desire or simply choose the one with the monthly premium which you can afford: R100 per month policy (pays out R10 000) or R200 per month policy (pays out R15 000).

1) **R100 per month – Affordable funeral policy**
(Benefit: Very affordable monthly premium; allows you to earn money, working from home and to have your very own Home-based Business, at a very low cost!)

Let's have a more closer look at why a Funeral Policy is actually the most Absolute Perfect Product for a home-based business:

Here is why:

A funeral policy is a "No Stress Product".

- With this product you do not have to be worried about re-ordering stock or about storage in a factory.
- You do not have to worry about the product ever being stolen.

- You don't have to carry boxes of products with you or in your car; not at all!

- Once you have taken out a policy it requires a zero amount of work. It remains a lifelong part of your business, even if you ignore it! Amazing!

- You are not required to go from door to door to sell our policies, all that is required is that you take out at least one policy and pay your monthly premium, then you may proceed to make money online with this business opportunity for the rest of your life. Even if you ignore the policy afterwards it's still there, in your business and you may focus all your attention on making money

online. You just need to make sure that your monthly Premium for your chosen Product is being debited every month.

- Your premiums are being deducted, automatically by debit order, so all you have to be sure of is that your money is in the bank when it's the date of deduction.
- It is a "No Stress" product and therefore it is perfect for a part-time or home-based business because when you come home in the evenings, after work, you don't have the time or energy to go and do product demonstrations or to go out and sell products to customers, etc.
- Pays **true residual income** (unlike other Business Opportunities, where you have to sell and sell again, the next month, to push point value and sell again the following month etc.); just introduce a new member to this business opportunity once and earn residual income every month for the rest of your life. As easy and simple as that!
- when you introduce members into your business, you get paid every month when their premiums are paid by debit order, so you are being paid an income, on time, every month, automatically! That's what makes this concept so brilliant!!
- The product is in demand by every South African and in every household. Every living person in South Africa must have a funeral policy.
- You may take out a policy even though you already do have one; in fact most of our members already do have other policies when they join but they choose ours because they are interested in making real money online! Other policies out there do not allow you to build your own online business!

You may also learn how to make money work for you. Become an investor.

Important to understand

It does not matter which product you choose.

You may choose any product which you like and you will be able to earn an ongoing, growing monthly income.

You will be able to build a great Home-based Business by taking out a funeral policy and by sharing the opportunity with others.

This is how you will earn a monthly income; but it is the second product, however, that will teach you how to collect R200's online and to have it paid directly into your bank account!

System!!

This is an eBook written by Jeremy Dreyer, the founder and creator of The SA-Solution Work-From-Home System. This System was created by a South African, for South Africans. In this eBook, you will be taught how to use our System. You will learn how to collect R200's online, step-by-step!!! The SA-Solution Work-From-home System; a System that has been carefully perfected over a number of years.

This eBook teaches you what you need to know about online wealth creation in South Africa.

Making money online is very easy but most people struggle to do it. Most people don't have a clue on how it works! Perhaps you are also struggling to make money online and don't know how to do it.

There are two reasons why you have never made any real money online!

The true reasons why you have never made any real money online are:

(nr.1) There is a lack of real money making business opportunities for South Africa, online. There are online businesses but you can hardly call them "MONEY-MAKING BUSINESSES"! Most of them are scams. The others don't really teach you how to make money.

There are a few good businesses but when you join, it takes you forever to start seeing your first R100 that you make online! It almost feels like in order to make a R1000 online, you first have to sponsor (recruit) a hundred members; in most cases you go to meetings and recruit some people but never even make enough money to go and buy some groceries! With most of the business opportunities that are available in South Africa it is either almost impossible to make money or at the very least, it is very hard to make money and it takes years to make a few Hundred Rands.

(Nr.2) The second reason why you have never made any real money online is because no one has ever taught you how or shown you the mechanics of online wealth creation. No one has ever shown you the science of how it all works and how you have to go about in doing it all.

There is a science; a certain mechanics to online wealth creation. Understanding this science is what has turned ordinary people into Internet Entrepreneurs and also Internet Entrepreneurs into millionaires and billionaires online. The way to move from one level to the next is, first of all; to understand the science and mechanics, then create a system for yourself. This puts you in a position, which will have money flowing towards you automatically, without you working hard to get it.

As money flows towards you because you now have an automated system that works 24/7, 7days a week, 365 days per year, you then put yourself in a position to become wealthy by simply repeating what you have learnt.

Getting wealthy is not an overnight thing but you can definitely see yourself grow from one level to the next and then just keep on growing and improving with the help of an **automated money making system**. You will see things change in marvelous ways, as the years go by, by just repeating the simple things, which you have learnt. This is how people become millionaires online. That is the science.

Understanding and using this science is the only way to become wealthy online. It is **THE ONLY WAY**. The SA-Solution Work-From-Home System is makes full use of this science and mechanics and is created to be a a 100% Personal Automated Money-making Machine! That's right!It is designed to be your very own online R200's collecting machine!

Let me give you an example on what you will have to do, so that you may understand this Powerful, online South African money making system better:

EXAMPLE:

Let's say, for example, you have your normal daytime job but it doesn't pay you enough, so now you have joined our SA-Solution Work-From-Home System to make some extra, part time cash.

So now, after your day at work, you come home; you sit and eat your supper and then go to your computer, to use The SA-Solution Work-From-Home System, to make some cash online.

Next, you type out an advert and spend about half an hour, just advertising or sharing your link on social media.

Here is an example of your advert and how you advertise your link online.

You type out the following advert, marked in yellow:

(The above link is just an example.)

You advertise the link, spending about one minute just to type out the advert and a few minutes to advertise it. Over the next day (or few days) many people on the Internet see this opportunity to make real cash. They think it might be cool to collect R200's, working from home, so they click on your link...
